Ted:

Welcome aboard!

I think the attached package is self-explanatory. Our plan makes all kinds of operational (and economic) sense. It is subject to a myriad of bureaucratic perils, however, and is likely to take time before all the approvals are in hand.

We'll be glad to provide more details if they will be helpful to you or your associates.

I have discussed the plan briefly with [REDACTED] and I'm sending a copy of the package to [REDACTED] because of the [REDACTED] aspects.
